Filling capacity engine oil 450/530 EXC-R/XCR-W MY 08

Dear KTM - Customer,

Mistakenly, the wrong engine oil filling capacity after an oil change was printed in the owner's manual (# 3211254).

The correct filling capacity of engine oil after an oil change is:

Filling capacity: 0,6 l engine oil

You can find the corrected owner's manual with the right filling capacity of engine oil on www.ktm.com

For questions, please contact your KTM dealer.
